- 7 The font is ready to use
- 8 Open Illustrator, Photoshop, Word etc. and have fun with the font:]

## USING THE FONT (LILLIUS demo - PATTERN TILES):

In image above digit 1, font: Lilius Demo

If you are using Microsoft Word or similar application you are good to go after you type the letter associated with the pattern of your choice. The pattern will appear automatically. Please note that in Word etc. you will be able to produce simple (one layer) pattern, as Word and similar applications is unable to overlap patterns.

If you are using Adobe Illustrator or similar application it may happen that you will need to adjust the leading to the size when the lines will meet. Once this is done – interconnecting pattern will appear
